Hardened Liver.

Five years ago I broke down with kidney and liver complaint and rheumatism. Since then I have been unable to be about at all. My liver became hard like wood; my limbs were puffed up and filled with water.

All the best physicians agreed that nothing could cure me. I resolved to try Hop Bitters; I have used seven bottles; the hardness has all gone from my liver, the swellings from my limbs, and it has *worked a miracle* in my case; otherwise I would have been now in my grave. J. W. MOREY. Buffalo, October 1, 1881.

Poverty and Suffering.

"I was dragged down with debt, poverty and suffering for years, caused by a sick family and large bills for doctoring.

"I was completely discouraged, until one year ago, by the advice of my pastor, I commenced using Hop Bitters, and in one month we were all well, and none of us have seen a sick day since, and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost. I know it."—A WORKINGMAN.

FRANCE AND CHINA.

FOOCHOW ARSENAL DESTROYED BY THE FRENCH FLEET.

A Six Hours' Fight—Seven Chinese Gunboats Sunk—Heavy Losses.

[DISPATCHES OF SATURDAY AND SUNDAY.]

LONDON, August 23d.—A *Times* dispatch from Foochow, dated at 7 o'clock this morning, says: At 9 o'clock last night Admiral Courbet officially announced that he had received orders from Paris to make reprisals. The British Vice-Consul left last night and reached an English gunboat at midnight.

Advices from Pekin of yesterday state that the Governors of Yunan and Quangsi have received imperative orders to march their forces into Tonquin.

A dispatch to the *Times*, which left Foochow at 2:15 P. M. to-day, says: Hostilities began this afternoon at 2 o'clock.

The real situation is far more coolly and correctly estimated in England than in France. The belief is general here that nothing will induce China to yield but an attack on Pekin.

In France the suspicion is universal that the English have urged on the Chinese to war, and the comments of the English press, which are all favorable to China now, as they were to the Southern States during the late American civil war, lend some countenance to the suspicion. The bitterness of feeling may be gathered from the comments of a Paris newspaper, which describes England as the cause of all the trouble. "England," continues this remarkable article, "has hypocritically encouraged these barbarians. Her pride is merely brutal egotism; her courage is a matter of guineas. Odiously perfidious and ridiculously impotent. England is now in the Chinese what she was in the Egyptian affair—deceitful, false and treacherous."

The Eastern Telegraph Company has given notice that, owing to hostilities at Foochow, telegrams to that point will be accepted only at the sender's risk, such telegrams to go from Shanghai to Foochow over Chinese wire.

A Shanghai dispatch, dated 6 o'clock this evening, says: It is reported that the French have captured the Chinese fleet at Foochow. Two French boats were sunk.

THE CHINESE MINISTER LEAVES PARIS.

PARIS, August 23d.—Li Fong Pao, the Chinese Minister, left Paris at 8 o'clock this evening for Berlin. It was reported during the day that Li Fong had received a dispatch of 200 words from his Government, in consequence of which he had a long conference with Prime Minister Ferry, and it was believed that he stated to him that he had postponed his departure from Paris. *Le Paris* believes the object of the dispatch was to sound Li Fong concerning the chance of submitting the quarrel to arbitration.

Three per cent. rentes this morning before the regular opening of the Bourse were buoyant at 77 francs 95 centimes for account, on the report that Li Fong Pao, Chinese Minister, would continue negotiations with the French Government. It is semi-officially stated that, inasmuch as France has not declared war, neutral vessels going to China are not subject to the restrictions which would be imposed in actual war.

EFFECT OF THE WAR ON THE UNITED STATES.

NEW YORK, August 23d.—A Washington special says: "The effect of the war between China and France will, it is believed here, operate greatly to the advantage of the United States through the almost immediate increase of trade between this country and China. The demand for all kinds of manufactured goods heretofore supplied China through French agencies will naturally be largely transferred to this country. The Chinese Government which possesses a large and powerful navy, will undoubtedly prohibit the importation of all French goods, its ports will be closed against French commerce, and not only will Chinese need munitions of war, but also commissary and quartermaster supplies, which can be transported from New York to San Francisco, thence to China by steamship lines, the traffic over which has perceptibly increased since the agitation of the Franco-Chinese trouble. China will continue to purchase of England as long as trade is untrammelled, but the natural highway of her trade is by way of San Francisco."

SEVEN CHINESE GUNBOATS SUNK.

SHANGHAI, August 24th.—The Foochow arsenal was destroyed yesterday after a three hours' bombardment by Courbet's squadron. Seven Chinese gunboats were sunk and two escaped. The European settlement is undisturbed.

BUT ONE BATTERY REPLIES.

PARIS, August 24th.—The bombardment of Foochow began at 2 o'clock in the afternoon and closed at 8 P. M. Only one Chinese battery replied. A report that two French vessels were sunk during the engagement is not confirmed.

NO DAMAGE.

SHANGHAI, August 24th.—The French fleet sustained no damage.

THE QUESTION OF ARBITRATION.

WASHINGTON, August 24th.—The State Department officials here refuse to say whether or not there has been any diplomatic correspondence between this and any other Government relative to the Franco-Chinese difficulty. While they do not deny that the intervention of the United States to prevent hostilities between France and China has been asked, they say that if there had been any correspondence of that nature they would not be at liberty to make it public. Secretary Frelinghuysen is not in the city at present. Assistant Secretary of State Davis said to your correspondent to-day that there had been no official information received at the State Department of the beginning of hostilities between France and China. He said the only information he had was what he got from the newspapers. He said he was not at liberty to say whether or not the United States had been asked to act as arbitrator between France and China. He said there could be no intervention on the part of this Government unless both the nations engaged in the dispute were willing.

THE CHINESE EMBASSY AT PARIS.

NEW YORK, August 24th.—The *Herald* has the following telegrams:

PARIS, August 24th.—Your correspondent called at the Chinese Embassy this afternoon. Colonel Tcheng Ki Tong, the Secretary of the Embassy, was chatting with a visitor in the waiting-room, and several lesser Celestials were reposing in the sun on the door-step, or smoking pipes in the hall opposite to huge cases labelled "Berlin." Your correspondent sent in his card to Colonel Tcheng Ki Tong, and was at once received. He said the rupture between France and China was now complete. He avoided, however, compromising himself, by saying that war was declared. "Our interview with Ferry yesterday," said the Colonel, "was a mere visit of courtesy. The attitude of the French Premier, therefore, was perfectly courteous. As to the cause of the rupture, nothing is simpler. France insisted on the payment of indemnity for what occurred at Langson. China, not acknowledging herself responsible, refuses the indemnity. The principle upon which China has taken her stand is intact. The sum offered was merely meant as a consolation for the victims of a misunderstanding."

The Secretary added that the statements published regarding the erasure of the date of the evacuation of Langson in the Fournier treaty was perfectly true, as he would be happy to prove by sending a fac simile of the original document immediately it reached Berlin.

Nothing whatever was known at the Embassy of the mysterious instructions which, according to the London *Morning Post*, were telegraphed to Pekin from Berlin.

Being asked about the report of arbitration, Tcheng smiled incredulously.

In reply to an inquiry this afternoon, Prince Hohenlohe, the German Embassador at Paris, declared that Germany had no intention of taking any part whatever in the Franco-Chinese quarrel.

THE STATUS BEFORE THE WAR.

NEW YORK, August 24th.—Wong He Chong, one of the wealthiest Chinese merchants here, describes the status before the war. He said Anam was progressing when the French secretly made a treaty with the dissolute and drunken Governor, who signed a concession making France governor and master of Anam. It is just the same as if the Governor of New Jersey or Delaware should, while drunk, convey his State to Germany or Russia. The proceeding would simply reflect discredit upon him personally, and would be null and void. Then, without notice to the United States, the French declare war against this very man, and bring to bear against him all the power of their great nation. They vaunt themselves upon their valor and victory—a nation of 40,000,000 conquering a petty official, who at furthest could bring together an army of 5,000 unpaid, unequipped and undisciplined men. Five hundred American or English soldiers could have done the same thing in less time. After that the French passed beyond the Anamese border and attacked one of our regiments. They had 6,000 men. We had 800, although they telegraphed all over the world that we had a force of 20,000 massed at a strategic point. Besides, our orders were peremptory not to fight. The only fighting we therefore did was what was necessary in order to retreat successfully, and for this they now say either pay us millions or we will slaughter your people and burn your cities. This is what they call civilization and Christianity. Do you wonder that we Orientals look askance at a people and a creed under whose name such things are done? We shall fight unless the great powers interfere on account of the injury to their commerce. We will transfer our commerce to England, the United States and Germany. France is afraid of the last nation, and won't dare to attack its ships. Our navy is in good condition, and our army well armed and trained according to your method. Most of our fortifications are modern earthworks, and no longer stone towers and fortresses. We have few torpedoes, but we have at Pekin and Macao a naval school, where the theory of torpedoes is taught, and at Pekin a small manufactory of torpedoes, under the supervision of talented English mechanics. I think that, however, the great powers will interfere. The Chinese commerce is vast in magnitude. England, the United States, Russia, and in fact every European power, exchanges goods with us in millions. Barring England, we have, I think, the largest commerce upon the globe. You are apt to overlook the fact that we are a trade center for Corea, Siberia, Japan, Anam, Siam, Burmah, Thibet, Tartary and India. Why, our trade with Peru and Chile alone exceeds $35,000,000 per annum, and as for this country, the report of the Chamber of Commerce shows how immense it has become. China is a business nation. It wants peace, not war. It desires to learn everything that will increase the producing power of its people and their wealth. It does not study military art and science, but buys these in open market. In fact, some of the best officials are Frenchmen, and in case of war they will be compelled to fight their own countrymen. Never the less I hope there will be an international conference, and that France will be checked in her bullying career.

Yom Lee, the Chinese Sheriff, said that he was glad that China had come to her senses, and would stand up for her own rights against the bullying French. Had China done otherwise, all the inhabitants would have risen and turned against the officials. They have spent too much money on military improvement to go off without making at least a little effort to show people what they can do.

Chinatown wore anappearance of peaceful satisfaction when they heard of China's final refusal to pay the French indemnity, although, a few who have families and property in Foochow, felt a little dubious, and began to burn joss sticks for Buddha Gautama to bless and protect them.

ABSENCE OF ENTHUSIASM.

PARIS, August 24th.—With the exception of two or three ultra-official organs like the *Republique Francaise*, the Paris press is the reverse of enthusiastic at the prospect of a war. The Radical papers are bitterly opposed to Ferry's spirited policy. The independent organs criticise severely the question of the Premier's right to involve the country in a war without the consent of the Chambers. The *La Nouvelle Presse* appeals to President Grevy to exercise his prerogative and dismiss the Cabinet, unless it convokes Parliament. In an interview with a representative of that paper, a political personage, not named, described the Chinese adventure as another Mexico; but Ferry is obstinate, and seems bent on acting regardless of public opinion.

HOPES OF A PEACEFUL SETTLEMENT.

PARIS, August 24th.—It is hoped that the Chinese trouble may yet be arranged under the auspices of Bismarck. It is regarded as a noteworthy fact that Baron De Courcel, the French Embassador to Germany, was summoned to Paris Friday, and returned to Berlin on the same train with Li Fong Pao, the Chinese Minister. Baron De Courcel was overheard to remark to a member of the Chinese Legation at the depot, "Let us hope the journey will be favorable to each of us."

STRANDED MAN-OF-WAR — HOSTILITIES CONTINUED.

SHANGHAI, August 24th.—Of the Chinese men-of-war which escaped the French bombardment at Foochow, one was stranded and had her back broken. The other met with no mishap.

The French recommenced firing to-day, directing their shots against the pagodas. It is surmised that the object of the renewed attack is to entirely obliterate the place.

The French transports are shelling the villages on the hights around the arsenal.

THE VERY LATEST.

LONDON, August 24th.—The *Times'* Foochow dispatch, dated Sunday, 3 P. M., says: The French shelled the barracks and camps near Quantao. No resistance was made to the attack. The Consulate buildings were looted by Chinese soldiers, who were in uniform and armed. The French chief of staff reports the loss of the French as six men.

SCENE OF HOSTILITIES.

Cost of the Foochow Arsenal—Walls of the City—Etc.

What is commonly known as the port of Foochow, that is to say, the place where the shipping arrive and depart from, is known to foreigners as Pagoda Anchorage, and is situated fourteen miles below the city proper. Pagoda Anchorage is the first point whereon a visitor to Foochow lands, and is thirty-one miles from the mouth of the river Min. The Min runs nearly east and west, and may be fairly compared with the noted German Rhine or our own Hudson river in point of scenery. The course of the stream is very crooked and circuitous, and the current is very swift, at times running eight or nine miles an hour. Of course these latter figures are exceptional, occurring only when the spring freshets set in, which is usually during the months of June and July, lasting throughout the rainy season. The current being so swift causes the sands and banks in the river to shift, and hence navigation from the river's mouth to the anchorage is very difficult, and the pilots on the river have to be on the constant watch for shifting landmarks. Approaching Pagoda Anchorage from the sea on either hand the mountains grace the banks of the river, and towering away above the rest is to be seen Ku Shan, or "Drum Mountain," with its famous monastery of Buddhist monks. Half way up the river is the village of Kivan-Tao, while a few miles beyond is the Mingan Pass, from whence the best and purest water is obtained in the whole district for miles around. Mingan water is the only water used for drinking purposes among foreigners at Foochow, the river water being too filthy and muddy for household purposes. Six miles below the anchorage is "Sharp Peak," whereat there are several foreign houses built, and where most of the families of the foreign residents spend the hot months of summer, enjoying the healthy bathing to be had there.

PAGODA ISLAND.

Pagoda Anchorage being reached, on the right hand side, as a sharp bend in the river is turned, Pagoda Island, or Lo Sing Tao, as it is termed by the Chinese, from whence the anchorage derives its name, is to be seen. The great peculiarity of Pagoda Island is the eight-storied pagoda, made of massive granite, which is on the peak of the hill situated in the center of the island. The island itself is but a small piece of land, measuring three miles long by one and a half to two and three-quarters of a mile broad. This pagoda, rising beacon-like in the immediate centre of the place, has the appearance of a gigantic light-house in the heart of a valley. On the other side of the river and directly opposite to the island is the Pagoda Custom House, a branch of the principal office at Foochow.

THE MIN FORTS.

A couple of miles below the Custom House are situated the Min forts, of which there are four, two on each side of the river. These forts are each mounted with six formidable Krupp guns, capable of carrying shot or shell clear across the river. The garrison is composed exclusively of native troops, and the forts themselves are earthworks backed up by solid masonry.

At the Pagoda Custom House the river Min divides into two branches, one going south toward a place called Yuen Foo, and named the Yuen Foo branch, the other, or main branch, going west toward Foochow. Going up the river toward Foochow, about a mile beyond Pagoda Island and on the same side of the river, is Mamoi, the seat of the Foochow arsenal. Mamoi is a small village leading toward Foochow, on the same side of the river as the city itself, and has some twelve or fifteen thousand inhabitants, who are mostly fishermen and seafaring people.

THE ARSENAL.

The arsenal, which was constructed under the superintendence of Prosper Giquel and a force of French assistants in the year 1870-71, is the most complete institution of its kind in the far East. The buildings, which are all constructed of brick and iron, cover forty two acres of ground, and everything, from the smallest nail to the largest anchor, is made here. There are two large slips upon which the largest men-of-war in the Chinese navy can be docked. These slips are fitted upon an inclined plane, and the vessels are lifted bodily out of the water by means of a series of screws driven by powerful steam engines. Besides the slips, there are four distinct shipbuilding yards, from which the entire Foochow fleet of composite gunboats, twenty-four in number, have had their birth. These gunboats are all constructed of teak and molave wood, with iron girders. The teak wood comes from Bangkok, Siam, while the molave, which is used exclusively for "knees," is imported from the Philippine Islands. There are machine shops without number, where, from plans made by the Chinese naval students, all the necessary machinery to propel the gunboats and men-of-war is made. Foundries for iron and brass castings, both large and small, are here to be found, and some of the largest lathes ever made in England or France have found their way out here. The arsenal complete cost over $15,000,000. From Pagoda Anchorage to Foochow it is necessary to go in a sampan or pull-away boat, or else to take one of the small steam launches plying on the river for the purpose, as the water is too shallow to allow deep-draught vessels to go beyond Mamoi, where the arsenal is situated. The rise and fall in the river is from twelve to twenty-six feet, and, in going up or down the river in sampans, it is necessary to follow the tide, which falls and ebbs twice a day.

THE FOREIGN COMMUNITY.

Arrived at the head of the river, near Foochow, the left or south bank is occupied by the suburb "Nantai," or "South Terrace," where the foreign community live, and where the foreign-managed Imperial Maritime Customs has its head office. Nantai is an island which is formed by the Yuen Foo and Min rivers, and is a very pretty place. The tea trade of Foochow being the all-important commerce of the place, all the tea merchants have their hongs or offices right near the river, which is banked up with a heavy granite seawall. The up-country boats all land their tea here, and the same is taken in the warehouses, or "godowns," as they are called, and there refined, repacked and matted, prior to shipment. Tea forms 90 per cent. of all the exports of the port and the value of that commodity exported during the year 1883 was over $20,000,000. The river at Nantai swarms with junks of all sizes and descriptions, which come from all parts of the coast with native produce. The foreigners at Nantai have a magnificent club-house, recreation and cricket ground, in which is combined a race-course. Pony races take place at the Nantai race-course twice a year, and ponies come here from Hongkong, Shanghai and Amoy, and what with out-door sports in the summer, and amateur theatricals and social parties in the winter, the three hundred and odd residents do not have such a dull time of it as one would imagine. The tea is conveyed to the shipping at Pagoda Anchorage in cargo boats, towed down the river by powerful steam launches. Connecting Nantai with the city of Foochow is an immense stone bridge leading across the river to an island half way over, and called Chung-Chow, meaning literally the middle of the stream. From Chung-Chow the bridge traverses the water till the suburbs of the city are reached. The island of Chung-Chow is densely populated with merchants and traders of all kinds. Save the streets, which are very narrow and dirty, there is not to be found a single square foot of ground which is not built upon.

SHENG-SHE-FUNG.

The native internal or Lekin Customs has its office here, and the opium Taotai, or Collector, also makes the island his headquarters. The present incumbent in this latter office, the Taotai Sheng-She-Fung, who has been also acting Taotai at Formosa, is the newly-appointed Minister to the United States. This Sheng-She-Fung was, some eighteen years ago, in the employ of the American house or firm of Russell & Co., who have the largest share of our trade with China, and who have branch offices in nearly every treaty port. Sheng speaks good English, and is the favorite aid-de-camp to His Excellency, the Viceroy Ho-Ching, the present ruler of the Fukien and Chi-Kiang provinces, of which Foochow is the capital. The suburbs in the immediate vicinage of the city proper are almost as thickly populated as within the walls.

THE CITY WALLS.

The streets of the Capital are narrow and dirty, and, like all other cities in China, the drainage is very bad indeed. The walls are eight miles in circuit, and are built of massive blocks of granite and strongly cemented with an impervious mortar, which has withstood the wear and tear of centuries. These walls throughout measure 70 feet high, and are 30 feet thick at the base and 20 feet at the top. There are eight gates, which are named after the four cardinal and four intermediate points of the compass. Each gate is made of heavy wood, studded with bolts, and covered over with sheet iron one-eighth of an inch thick. They are closed each night at 9 o'clock, and no one is permitted to enter or leave the city without being examined by the civil and military authorities stationed at the gate. At daybreak they are again opened, and the stream of passers-by make their entrance and exit. The Viceroy's and Tartar General's yamuns or palaces are right in the heart of the city, the soldiers who are garrisoned there living in a separate quarter, known as the Tartar City, and inhabited exclusively by Manchus. The population of the city and suburbs is estimated at over one million of inhabitants.

THE FRENCH FLEET.

The French fleet in Chinese waters embrace the following vessels: Gunboats—Aspic, Chateau Renaud, Lutin, Perceval, Saone, Lynx. Ironclads—Bayard, 14 guns; Triomphante, 14 guns. Corvettes—Villars, 15 guns; Volta, 6 guns. Cruisers—D'Estaing, 15 guns; Hawelin, — guns; Duguay Trouin, 14 guns. Frigate—La Gallissoniere, 14 guns.

MR. M. J. GREEN, P. M., at North Buffalo, Pa., states his feet were badly frosted, and he suffered also with pains in the head, which St. Jacobs Oil, the great pain-reliever, completely cured.

THE TWO PARTIES AND THE RAILROADS.

It will be remembered that one of the Board of Transportation Commissioners, during the discussion of the question of reduction of railroad rates, objected to the four-cent rate because "it would not satisfy the people." It was not because he found, as a judicial officer, that the rate was not just to the carrier and the shipper, for his estimate of what "satisfies the people" was revealed in the supplement to the remark, "and beside I believe that a three-cent rate would help our party." So far, then, as this official was concerned, the measure of his judgment of the demands of the people was a partisan one. It was not objected to the rate so much that it was not, as in fact it was, "a material reduction," as that it would not punish the railroad company. That is, we mean to say that a vast deal of the political obstructions placed in the way of railroad development, and hindrances in the way of railroading in California generally, are due to a desire to inflict injury rather than do justice to the carriers. As proof of this is to be cited the same Railroad Commissioner, who, in the same debate, made no secret of his objection to a proposed reduced rate because he believed it would not entail upon the railroad company aimed at a moneyed loss. On the contrary, he cried out with unction that the reduction would "absolutely increase the revenue of the railroad company, by reason of the increased stimulus that would be given to travel." Yet, strange as it may seem, the iterated plaint of this same representative had been, that not sufficient inducement was given to the people to travel by rail, because of rates he held to be too high. By the standard of judgment and duty thus set up in high official station, it was suggested to the Democratic party to trim its policy on State questions according to party needs. The party managers, or a ring of them, took the cue, and resolved to ignore the question in the railroad problem, "Is the rate charged fair to both carrier and shipper?" and to substitute for it the demand for injury to the carrier in the interest of the shipper. Yet the party has had the effrontery to call this a policy of regulation. In pursuance of that policy it has practically declared that the rate on which the debate referred to occurred in the Railroad Commission, could not be fair to both shipper and carrier, since it produced the largest amount of income to the latter, thus joining with the San Francisco *Chronicle* in its demand that the carrier be hurt. The Democratic party, in short, by the action of its labeled agents and representatives, and the utterances of Stockton Convention and its subsequent acts and declarations, has set up the infamous doctrine that the interests of shippers by rail are to be measured by injury to the carriers. The interests of railroad companies are commercial in character; they are entitled to the same protection, consideration and fostering care at the hands of a just people, as any other commercial interests. This is precisely what the Democratic party has declared shall not be the policy of this State. An equitable adjustment between shippers by rail and carriers by rail, will give the one a fair rate and compel the other to pay it, and this is the policy of the Republican party in the State and nation. It proposes that the carrier shall impose no unjust or oppressive policy on the shipper, nor shall the former pursue its business without answering to the State for any abuse of the privilege. But it proposes, also, that there shall be no imposition of measures upon the carrier that will cripple his ability to do business. The policy first outlined, and which, by the arts of most shameless demagogy was injected into the Stockton platform, is the destructive spirit—a low, selfish and short-lived spirit. In contrast to it is the spirit of fairness reflected in the Republican platform, which holds for as a full application of the power to regulate as is demanded by any just men, but insists that it shall be exercised with the rights and interests of both parties in full view; that the rates to be charged shall be fair to the shipper, and promote the prosperity of the carrier. Those who stand in opposition to this lofty enunciation of justice, and contemn the demand for common honesty in dealing with corporations, do so upon the proposition that regulation is only effective when it lowers the aggregate income from transportation. The Republican party, actuated by the spirit of equality and right-doing; of the even-handed justice and probity that gave it birth, though it has at times been forced by demagogues into unnatural positions, declares after all these years of turmoil and hot contention over the railroad question, in favor of exercising the power of regulation equally—the same against the individual as against the corporation; that whatever is right for the individual shall be the standard for the regulation of railroads. This may be taken to be its settled policy. To this has come all the agitation of the railroad question in the party—the enunciation of a broad, unvarying and lofty principle of justice. Over against this stand the destructionists, the outcome of whose teachings, in the guise of Democracy, means ruin and commercial stagnation. Which of the two parties thus arrayed commends itself most to the fair-dealing, honest and self-respecting voter?

SHOULD HE RESIGN?

A great deal of pother is being made by some religious and a few secular journals concerning Governor Cleveland's demanded resignation of the Democratic nomination. Why should he resign? The Democracy put him to the fore with a full knowledge of the man. It had tested the public estimate of his character in two elections in a critical State; the last one putting him in the Gubernatorial chair of the chief commonwealth of the Union. Since then nothing new has developed regarding him. Because of some moral questions involving past chastity it is asked by the *Congregationalist* and several other church journals that he resign the nomination and withdraw from the canvass. Since when did the Democratic party commit its conscience to the keeping of church journalism? Since when has the church shown so much interest in a Presidential campaign? The halting, weak-kneed and short-sighted "independents" are doing their utmost to make the people believe they really constitute a considerable force in the campaign. Should the Democracy lose its head and yield to them, it will confess its fitness for everything mean and ignoble. So far as the Republican party is concerned it could wish for no better hap just now than the withdrawal, or forcible retiracy of Cleveland from the campaign. The Democracy could not make a second rally. Having ignored its old leaders and trusted servants, and taken up a new man who has been faithful to it, it cannot, if it retires him, make another stand against the enthusiastic spirit that is sweeping Blaine and Logan into office. It is precisely the time when the Democrats cannot afford to "swap horses;" they are in the middle of the stream and the swiftest of the current. We do not believe that they will be deceived in this matter, despite their proneness to blunder. They ought to see that the Butlerian cranks, Prohibitionists, radicals, and all the rest of the political small fry, have a profound interest in urging Cleveland's withdrawal—they hope, in the break-up, to catch the stragglers.

CHINA AND FRANCE.

The outcome of the wrangle between China and France has been precisely what to the observant seemed inevitable, and war is to be prosecuted. It will not be a long, but may be a very bloody contest. China in the art of war is not an expert, but human life is held at low valuation there, and it will be sacrificed by her without stint. Nor are the Chinese lacking in bravery. Since last they engaged a European force they have made great advances in the disciplining of the military arm, and in fitting out the forces with approved instruments of battle. Beside, they have been taught by European military men, and in the art of gunnery will probably show that they are capable of very much improved service. So far as the cause of the war is concerned, it must be assumed that the American reader is well informed, for the issue is a simple one, and has been clearly and freely stated in the American newspapers. We have from the outset held that France has the right of the contest, and that China deserves, as we believe she will receive, punishment.

THE preparations being made for the proper observance of Admission Day in this city are such as to indicate that the celebration will take on something of State importance. It is to be under the sole direction of the young men who have associated themselves for confraternal purposes, as natives of California. There is a peculiar fitness in this disposition. It is most appropriate that this citizenship product of the act of admitting California into the Union should make the anniversary a jubilee and invite to it all the State. It is fitting that the adult population of the State born elsewhere than in this favored territory should recognize the efforts of the young men with a broad liberality, and make the celebration of the 9th of September at the Capital City one long to be remembered.

IT is not pleasant to reflect that there are spirits in this day and hour, who, while toasting their toes, criticise Greely and his men for not doing thus or so in the midst of Arctic rigors. It is a mean action to attempt, after all that has past, to fix the odium of gross mistake upon Greely. He was reprimanded by some coal-fire Arctic navigator for not crossing Littleton Island. But the man Greely keeps his temper and crushes his critic by replying that in order to do so he would have been forced to cross a current flowing between Cape Sabine and the island, that ran like a mill-race, and which it was practically impossible to undertake.

MR. AND MRS. BACK named a baby boy of theirs after Mr. Nominee Hendricks. Thereupon Mr. Hendricks sent back to Mr. and Mrs. Back a gold cup for the baby. It is one of the most unaccountable of human actions, that men and women will entail misery upon their unfortunate offspring by giving them the names of political accidents. It is a good rule to name a child after no living man. When the Back-Hendricks youngster arrives at maturity he will be justified in repudiating the folly of his parents.

THE reported appearance of the cholera at two far interior points of the west of this country may be doubted. We are not justified in believing that the genuine cholera in its march around the world makes such broad strides as that.

CAPTAIN S. B. WASHBURNE, a brother of ex-Minister Washburne, writes from Portland, Me., that the Democrats concede that State to Blaine, and have about concluded to make the vote there unanimous for him.

PACIFIC SLOPE.

CLOSING DAY OF THE RACES AT SANTA ROSA.

Prominent Mormon Dead—Tramps Killed by a Train—Fire in Washington Territory.

[DISPATCHES OF SATURDAY AND SUNDAY.]

CALIFORNIA.

Close of the Fair and Races at Santa Rosa.

SANTA ROSA, August 23d.—This was the last day of the fair and races. This fair has proved to be the most successful one ever held by the Association, financially as well as otherwise. The gate receipts for the entire week amounted to nearly $5,000.

The first race to-day was a postponed trotting race of yesterday. Blanche, Ned and Uncle Tom started. Blanche won the heat easily in 2:31¼. Blanche and Ned having two heats each yesterday, this gave Blanche the race, Ned taking second money and Uncle Tom third.

The next race was a running, two-and-a quarter-miles dash, free for all; $30 entrance, $15 forfeit, $250 added, $75 to second horse. Patrol, Garfield and Bird-Catcher started. In the pools Garfield was selling at $25, Bird-Catcher at $23 and Patrol at $10. Patrol led off and retained the lead all the way through. Garfield followed Patrol, but was passed by Bird-Catcher on the sixth quarter.

Patrol was four lengths ahead coming down the homestretch, and within a few feet of the wire his rider pulled him up and smiled at the judges and pool-sellers with an air of self-satisfaction, not noticing Bird-catcher until she was almost neck and neck with him, when he spurred and lashed his horse and jumped in a neck ahead of Bird-Catcher, with Garfield third. Time, 4:10.

The next was a special trotting race, 2:35 class, purse $500. Goldsmith entered Guy Wilkes and George Bayless entered James H. James H. took the lead, but after passing the quarter pole broke badly and let Wilkes take the lead by 100 yards. Wilkes kept at this distance to the home-stretch, when Goldsmith pulled up and came under the wire in a jog trot. Time, 2:39½. In the second heat James H. again broke on the quarter-stretch and let Guy Wilkes win the heat with ease in 2:32½. In the third heat Wilkes led off, with James H. closely pushing. They kept together to the half post, when James H again broke and Wilkes won the heat and race. Time, 2:30.

This ended the advertised racing, but the hour being early, Major A. H. Loucks of this place stepped forward and put up $100 to be trotted for by Abe Ward, Buck Foster and Sorrel Ben. In the first heat Abe Ward took the lead, with Buck Foster second. On the first quarter Sorrel Ben broke and Abe Ward took the lead, with Buck Foster second. At three-quarter post they were in the same position, but on the home-stretch Abe Ward broke and let Sorrel Ben win the heat in 2:43. In the second heat Sorrel Ben and Abe Ward trotted together all the way round. Sorrel Ben won the heat, with Abe Ward second and Buck Foster distanced. Time, 2:45½. The third heat and race was won by Sorrel Ben easily, Abe Ward again breaking badly. Time, 2:45½. This closed the racing.

Dead in Jail.

REDWOOD CITY, August 23d.—This morning Howard Martin, aged about 45 years, a prisoner awaiting a hearing for petty larceny, was taken suddenly ill with cramps at the County Jail. Antidotes for strychnine poison were administered, but he died in about half an hour. It was ascertained at the inquest that about two weeks ago the jailer had procured strychnine and put a little of it, with butter and sugar, on two small pieces of bread, and placed them on the floor, in corners, for the purpose of killing mice. This morning Martin was in the kitchen assisting to scrub and clean up, and it is supposed that he must have eaten a piece. He was described as eccentric and fond of hunting around. Before dying Martin told the jailer he had found a little piece of bread in a bucket, but he would not tell whether or not he had eaten it. The jury returned a verdict that deceased came to his death by strychnine poisoning.

A Chinawoman Shot.

MARYSVILLE, August 23d.—To-day at 2 o'clock in Chinatown a Chinaman shot, and, it is thought, fatally wounded a Chinawoman. The ball passed through the right lung and liver.

An Opportune Rain.

LOS ANGELES, August 23d.—The fire at San Fernando yesterday destroyed 1,000 acres of grain on the ranch of Lankershim & Vannuys. The fire was arrested by plowing up the ground, and a heavy shower of rain came up opportunely to aid in the work of preservation. Some damage was done by the fire to grain near Pomona, and in Spadra valley also. Heavy rains and thunder and lightning were reported in various portions of the county last night. In some parts of the San Gabriel valley an inch and a half of rain fell.

Two Tramps Killed.

REDWOOD CITY, August 23d.—Two tramps were run over and killed by a train near San Mateo yesterday morning. The bodies were terribly mutilated, cut and bruised. The head of one was almost split in two, and a leg was severed from one of them, an arm from the other.

Santa Cruz Republican Nominations.

SANTA CRUZ, August 23d.—The Republican County Convention was held to-day, and the following nominations made: Assembly, Lucien Heath; Superior Judge, F. J. McCann; Sheriff, F. F. Porter; Clerk, Ed. Martin; District Attorney, E. Spalsbury; Treasurer, John Werner; Surveyor, J. J. Lewis; Coroner and Public Administrator, P. B. Fagen.

Chico Republicans.

CHICO, August 24th.—Last evening the Young Men's Republican Club had a fine demonstration. In fact, it is conceded to be the grandest thing of the kind of a local nature that ever took place in Chico or in northern California. Hon. A. L. Hart, of Sacramento, and Hon. W. M. Cutter, of Marysville, were the speakers.

Butte County Democracy.

CHICO, August 24th.—Yesterday the Democratic primaries were held in Butte county. In Chico there was a fierce contest for delegates in the interest of Judge Hundley for District Attorney, as against Major A. F. Jones, the present incumbent of that office. It is thought that Jones has two-thirds of the delegates from this section. The County Convention will be held next Saturday.

Meeting of Settlers.

REDDING, August 24th.—The meeting of the new settlers of this county yesterday, for the purpose of getting acquainted with each other and comparing views, was well attended. They expressed themselves well satisfied with the county, and were very enthusiastic as to their prospects. They organized a new settler's organization, elected a President and Secretary, and have arranged to meet here monthly.

An Easy Escape of Prisoners.

SAN BERNARDINO, August 23d.—At 12:30 to-day three prisoners escaped from the jail in this town by simply walking out of an open door, which at present it is difficult to say who was negligent enough to leave open. After getting out they ran for the swamp south of town. The cry was raised, and soon twenty-five men, with rifles, shotguns, pistols, etc., were in pursuit. Two have already been captured, and the other will be soon.

The San Francisco Police Commissionership.

SAN FRANCISCO, August 24th.—Attorney General Marshall has formally notified Hinton, appointed Police Commissioner vice Hammond by the Governor, that he cannot sue for the office in the name of the people, because the Governor had no authority to make the appointment. He says: "The Governor has no more power to make the appointment now than he had for the eighteen months in which he abstained from making it, or than Governor Perkins had during the eight months in which he abstained from making it. The presumption that the Governor has done his duty these eighteen months aids me to believe that the Governor has eventually made the appointment to relieve himself from the undue pressure of office-holders."

Wheat Destroyed by Fire.

MERCED, August 24th.—A fire broke out on the farm of R. S. Clay, three miles east of town, this afternoon, and before it could be got under control burned four large stacks of wheat. The fire was ignited by sparks or cinders from the engine. It is estimated that about 1,000 sacks of wheat were burned, and the damage to the engine is $50 or $100. The loss was partly covered by insurance. Prompt action on the part of Mr. Clay's men, and the men from neighboring farms, saved thirty other stacks belonging to Mr. Clay, which stood in close proximity to the fire, from destruction. The whole loss is a little less than $1,500.

UTAH.

Death of a Prominent Mormon.

SALT LAKE, August 23d.—Bishop William S. Dame, for thirty years a leading spirit of the Mormon Church in Southern Utah, has just died at his residence, in Parowan, Iron county. He was President of the Iron County Stake at the time of the Mountain Meadow massacre, and Colonel of the regiment of Mormon militia that participated therein, but he was not on the ground until the next morning. He was indicted at the same time as John D. Lee, for the murder, but the case against him was never proved.

Memorial Services at the Tabernacle.

SALT LAKE, August 24th.—The memorial services at the great Mormon Tabernacle were attended to-day by immense crowds in honor of the martyrs from Tennessee. The bodies arrived three days ago. The meeting was under the direction of the Presidency of this stake. The speakers bewailed the wickedness of the Gentiles, and said the slain were better than their slayers. Much stress was laid on the crown of glory ready for these martyrs. Similar services were held in all the stakes of Zion.

OREGON.

Aquatic Sport at Portland.

PORTLAND, August 23d.—A novelty in the way of aquatic sport took place on the Willamette river, in front of the city, this afternoon, it being two swimming races, under the auspices of the Willamette Rowing Club. The first race was 100 yards, for members of the club only. It was won by David Dunbar, John Gill a good second. Time, 1:20. The second race was a free-for-all, 200 yards. It was won by Al. Hall, of San Francisco. Time, 2:57.

WASHINGTON TERRITORY.

A Blaze at Spokane Falls.

SPOKANE FALLS, August 23d.—A fire this morning in Flynn's saloon destroyed it and four other small buildings, occupied as follows: Trout & Chamberlain, boots and shoes; S. Richards, saloon; S. H. Heath, stationery, and Peter Dueber, harness and saddlery. Most of the stocks were saved. The loss is between $9,000 and $10,000, insurance light.

BRITISH COLUMBIA.

The Chinese Commission—Run Over and Killed.

VICTORIA, August 23d.—The Chinese Commission terminated its labors to-day. Mr. Chapleau said he had learned enough to warrant him in recommending a restriction act to the Dominion Parliament.

James B. Tupper, a nephew of Sir Charles Tupper, was run over and killed on the Canadian Pacific Railway to-day. The remains were gathered in a box and taken on to Yale.

OLD MEXICO.

Guaymas Still Said to be Healthy.

GUAYMAS, August 23d.—Your correspondent has seen the telegrams published in the San Francisco *Chronicle*, via Chicago, which purported to have been sent from Hermosillo, Sonora, and has taken the trouble to hunt the matter up. There has no such a telegram gone over the wires from Hermosillo. There is no effort on the part of the authorities at Hermosillo or here to suppress the number of deaths. On the contrary they are affirming and publishing them every week. There has not been a single case of yellow fever at Ortiz or any of the other stations along the line, and there have been no deaths among the people. In regard to the disease, and lastly, there have been no cases of yellow fever in Guaymas for more than one month past. The telegram published is made out of whole cloth. There are a few sporadic cases in Hermosillo, but Guaymas is in her usual healthy condition. Heavy rains are prevailing all over the State.

On Friday morning the skeleton of a person, apparently about 14 years of age, was found near Cape Horn, above Colfax. It is supposed to be that of a boy who assisted in driving a band of cattle in that part of the country some two years ago, and who was then missed and has never been heard of since.

GENERAL NEWS.

[LAST NIGHT'S DISPATCHES TO THE RECORD-UNION.]

DOMESTIC.

Wholesale Land Steals.

WASHINGTON, August 24th.—Sometime since the Commissioner of the General Land Office ordered a survey of certain public lands in Colorado and Nebraska, with a view of bringing suits at the next term of Court against the cattle companies that have illegally dealt in large tracts of land in those States. A special agent, who has been superintending the survey in Colorado, in his report to the Commissioner, says eight cases have been found against the Prairie Cattle Company, composed of Scotchmen. An examination has been made of tracts containing respectively one hundred square miles, twenty-five square miles, sixteen square miles and seventy-five square miles, and the agent is at present examining a tract containing over 100 square miles. All of these lands are under the control of the Prairie Cattle Company, and the agent says are illegally fenced in. Officials in the Land Office say the practice of illegally fencing in large tracts of land and, making fraudulent entries has been greater the past year than ever before. They claim that between five and six millions of acres are now illegally fenced, and that several millions of acres are fraudulently entered.

"The Mountain Labored," Etc.

NEW YORK, August 24th.—For a long time the *Herald* has been threatening the community with a document from William Henry Hurlbut, formerly editor of the *World*, which would effectually kill Blaine's chances for election. Hurlbut shot his thunderbolt yesterday. It consists of a letter from a French watering-place, in which he describes Blaine's action towards American citizens of Irish birth while languishing in British prisons. There is nothing new in the story, and it consists of a rehash of Blaine's levity in action and great friendship for Minister Lowell.

Murder of a Two-Year-Old Boy by His Father.

COOPERSTOWN (N. Y.), August 24th.—This morning Fennimore Clayton, in the town of Middletown, shot and killed his only son, aged two years. Clayton had had delirium tremens for several days previous to the murder. He took the boy out into the yard and shot him through the head, saying, "He is now in heaven, and better off." He then went into the house and tried to kill his wife and mother, but they secured the weapon, but not until they had given him several severe blows upon the head with a base-ball bat. Clayton was arrested. He is a farmer of about 30, and of a respectable family.

Private Henry's Remains.

NEW YORK, August 24th.—It has been decided to exhume the body of private Henry, of the Greely party. An autopsy will be made to-morrow.

Memorial Services in St. Louis.

ST. LOUIS, August 24th.—Memorial services in honor of Dr. Octave Pavey, of the Greely Arctic expedition, were held in Christ Episcopal Church this afternoon. The services were very simple, but impressive, and were witnessed by a large audience. The civic memorial services have been postponed until October 1st.

Rough Day on a New Hampshire Lake.

LACONIA, August 24th.—This has been a rough day on Lake Winnipiseogee. It was reported here that the steamer James Bell, from the Alton Bay camp meeting, had gone ashore. She had about 1,000 passengers. Particulars are not obtainable at present, but it is not believed that any persons were lost or injured.

A Score of Race Horses Burned to Death.

CYTHIANA (Ky.), August 24th.—At 1 o'clock this morning the Abdullah stables were burned, and a score of fine race horses perished, among them Long Branch, Chestnut Wilkes and Jersey Lily. Different owners had their horses quartered in the stables. W. H. Wilson places his loss at $50,000. The total loss is estimated at $100,000—mostly in horses.

Observatory Burned.

CONCORD (N. H.), August 24th.—The Orchard Grove observatory at Weirs was burned to-night.

The "Herald's" Figures.

NEW YORK, August 24th.—The *Herald* has a table giving the probable result of the election. Cleveland, by this, is to receive 277 votes and Blaine 124. Oregon is going for Blaine, but California, Nevada, New York, New Jersey, Connecticut, Indiana and Ohio will go for Cleveland.

FOREIGN.

Cholera Reports.

MARSEILLES, August 24th.—Eight deaths from cholera occurred in this city last night.

TOULON, August 24th.—Five deaths from cholera occurred last night. The increase is attributed to the hasty return of the inhabitants, especially as a state of infection is still prevailing.

ROME, August 24th.—Cholera is increasing in Italy. In the province of Cuneo there have been eighteen deaths during the past three days, and at La Spezia and adjoining villages seventy fresh cases. Forty-eight deaths have occurred in the past two days.

WASHINGTON, August 24th.—The United States Charge d'Affaires at Rome notifies the State Department of the outbreak of cholera at Spezia. The Consul-General at Genoa telegraphs: "Cholera suddenly attacked Spezia on the 22d. Sixty-one cases were reported last night—49 fatal."

MARSEILLES, August 24th.—Fourteen deaths from cholera occurred here during the twenty-four hours ending at 9 o'clock to-night.

LONDON, August 24th.—Two deaths from cholera have occurred on the island of Corsica.

PARIS, August 24th.—The following deaths occurred during the twenty-four hours ending to-night in the southern departments of France: Pyrennes Orientales, 14; Herault, 8; Gard, 10; Aude, 30. To-day's bulletin from the provinces of Italy shows 9 deaths and 32 new cases. There were three suspected cases of cholera to-day at Naples.

Visitation of Fire.

LONDON, August 24th.—A fire has been raging for three days in Rawa, a town in Austrian Galicia. Three hundred houses have been destroyed, and 3,000 persons rendered homeless. A fire also destroyed 14 dwellings and 327 farms in and about the large market town of Rozwadow, Austrian Galicia. The harvest, just gathered, was all consumed. There is a great dearth of provisions in the town.

Ordered to Africa.

BERLIN, August 24th.—The Corvette Bismarck has been ordered equipped, preparatory to proceeding to the west coast of Africa in October.

The Strained Relations Between England and Germany.

ST. PETERSBURG, August 24th.—The *Novosti*, reviewing the strained relations between England and Germany, cordially acknowledges England's recognition of the right of Russia to reap the fruit of her sacrifices in Central Asia. England, the paper says, is enjoying a similar right in Egypt. Nothing has been done by Russia to humiliate England for the benefit of Germany. The humiliation of England would disturb the balance of power in Europe.

Turkey and the Egyptian Question.

CONSTANTINOPLE, August 24th.—Recent Cabinet councils have discussed the question of sending a fresh circular to the powers concerning Egypt.

Small-pox in Africa.

LONDON, August 24th.—Advices from Western Africa say that small-pox is raging at Coomassie, Ashantee. The King of the country recently died, and 300 subjects were killed at the funeral. A new King has been appointed, and the Ashantee chiefs asked that the country be annexed to the English possessions because of his notorious cruelty.

Death of an Author.

LONDON, August 24th.—Henry George Bohn, the author and publisher, is dead.

The World's Convention of the Young Men's Christian Association.

BERLIN, August 24th.—The fourth day of the world's convention of the Young Men's Christian Association was devoted to various religious exercises and a conference on religious work. A farewell meeting was held in the evening and the convention closed.

PRESENTATION AT WILLOWS.—E. C. Hart, formerly proprietor of the Willows *Journal*, visited that place a few days ago from this city, and while there was presented at the Crawford House with a rosewood cane, mounted with gold very handsomely. Inscribed upon it is, "Presented to E. C. Hart by Citizens of Willows." J. E. Putnam made the presentation in a neat little speech, to which Mr. Hart responded heartily.

The Hop Market.

The *Emmet Wells' Hop Report* of the 15th inst. says:

Within the past two days a larger inquiry has been made by brewers, but the trade is anything but lively, as there appears a disposition on the part of holders of good 1883's not to force them on the market at the present time, knowing that every bale will be required by their customers before January next; in fact stocks have become so much reduced that it is believed good '83's will bring more than new hops at the opening of the season, and as long as they last, for the fact is well-known that brewers cannot get along without them, and as they are carrying little or no stock, they must come into the market and replenish.

Notwithstanding the condition of affairs, we find it necessary to reduce our quotations this week one cent all round, in conformity with actual transactions. A few bales of the new growth have arrived here and met with the usual slow demand from brewers, but not enough has been done in them to fix quotations. Thirty to 35 cents is the general asking price, when any call is made for them.

There have been, as we notice in our exchanges, a few contracts effected in the interior at 30 cents, but, as the English crop shows daily improvement, the speculators and dealers can hardly see their way clear in offering these prices for any considerable quantity, the general belief now being that the opening price will be a little under these figures, and until something more definite is known as to the extent of the English crop and the prospects from the continent, operators will feel that it is policy to move slowly.

Laborers, while sinking an artesian well at West Point, Miss., the other day struck a large poplar tree at a depth of 550 feet, the wood of which was in a perfect state of preservation.

Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. CONSTITUTIONAL AMENDMENTS

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT.

Pursuant to the Constitution of the State of California, and an Act of the Legislature of the State of California entitled "An Act to provide for the submission of proposed amendments to the Constitution of the State of California to the qualified electors for their approval," approved March 7, 1883, notice is hereby given that the Legislature of the State of California, at its twenty-fifth session, commencing on the first Monday after the first day of January, A. D. 1883, two-thirds of all the members elected to each of the two Houses of said Legislature voting in favor thereof, proposed that Section 19 of Article XI. of the Consitution of the State of California, be amended so as to read as follows:

Amendment No. 1.

SECTION 19. In any city where there are no public works owned and controlled by the municipality for supplying the same with water or artificial light, any individual or any company, duly incorporated for such purpose under and by authority of the laws of this State, shall, under the direction of the Superintendent of Streets, or other officer in control thereof, and under such general regulations as the municipality may prescribe for damages, and indemnity for damages, have the privilege of using the public streets and thoroughfares thereof, and of laying down pipes and conduits therein, and connections therewith, so far as may be necessary for introducing into and supplying such city and its inhabitants either with gaslight or other illuminating light, or with fresh water for domestic and all other purposes, upon the condition that the municipal government shall have the right to regulate the charges thereof.

And notice is hereby further given, that at the same session two-thirds of all the members elected to each of the two Houses voting in favor thereof, the said Legislature proposed that Section 7 of Article IX. of the Constitution of the State of California be amended so as to read as follows:

Amendment No. 2.

SECTION 7. The Governor, Superintendent of Public Instruction, and the Principals of the State Normal Schools shall constitute the State Board of Education, and shall compile, or cause to be compiled, and adopt a uniform series of text books for use in the common schools throughout the State. The State Board may cause such text books, when adopted, to be printed and published by the Superintendent of State Printing at the State Printing Office, and when so printed and published, to be distributed and sold at the cost price of printing, publishing and distributing the same. The text books so adopted shall continue in use not less than four years; and said State Board shall perform such other duties as may be prescribed by law. The Legislature shall provide for a Board of Education in each county in the State. The County Superintendent and the County Boards of Education shall have control of the examination of teachers and the granting of teachers' certificates within their respective jurisdictions.

And notice is hereby further given that the Legislature of the State of California, at its twenty-fifth (extra) session, commencing on the twenty-fourth day of March, A. D. 1884, two-thirds of all the members elected to each of the two Houses of said Legislature voting in favor thereof, proposed that Section 9 of Article XIII. of the Constitution of the State of California be amended so as to read as follows:

Amendment No. 3.

SECTION 9. A State Board of Equalization, consisting of one member from each Congressional District in this State, as the same existed in eighteen hundred and seventy-nine, shall be elected by the qualified electors of their respective districts, at the general election to be held in the year one thousand eight hundred and eighty-six, and at each gubernatorial election thereafter, whose term of office shall be for four years, whose duty it shall be to equalize the valuation of the taxable property in the several counties of the State for the purposes of taxation. The Controller of State shall be ex officio a member of the Board. The Boards of Supervisors of the several counties of the State shall constitute Boards of Equalization for their respective counties, whose duty it shall be to equalize the valuation of the taxable property in the county for the purpose of taxation; provided, such State and County Boards of Equalization are hereby authorized and empowered, under such rules of notice as the County Boards may prescribe, as to the county assessments, and under such rules of notice as the State Board may prescribe as to the action of the State Board, to increase or lower the entire assessment roll, or any assessment contained therein, so as to equalize the assessment of the property contained in said assessment roll, and make the assessment conform to the true value in money of the property contained in said roll; provided, that no Board of Equalization shall raise any mortgage, deed of trust, contract or other obligation by which a debt is secured, money or solvent credits, above its face value. The present State Board of Equalization shall continue in office until their successors, as herein provided for, shall be elected and shall qualify. The Legislature shall have power to redistrict the State into four districts as nearly equal in population as practical, and to provide for the elections of members of said Board of Equalization.

Each amendment shall be voted upon separately from the others, by ballot, at the next general election, to be holden on TUESDAY, the 4th day of NOVEMBER, A. D. 1884. The ballots used at such election shall contain the words: "For the Amendment No. 1," or the words "Against the Amendment No. 1;" "For the Amendment No. 2," or the words "Against the Amendment No. 2;" "For the Amendment No. 3," or the words "Against the Amendment No. 3," written or printed thereon.

LOCAL INTELLIGENCE.

Police Court.—In the Police Court Saturday Mrs. McHenry was tried for cruel treatment of her grandchild. The evidence showed that she was guilty, but, on account of her advanced age, she will probably be allowed to go without punishment. The child, however, will be looked after, and, if not properly treated in the future, will be taken from her......Edward Parent, for having been drunk, was fined $5......The cases of R. D. Cooper and Peter Holling, accused of disturbing the peace, were dismissed on payment of costs......S. S. Bedee, arrested for battery, was found guilty, and will receive judgment to-day......The case of F. D'Hondt, for misdemeanor in violating the health ordinance, was continued until the 27th......The case of Louis Schmidt, for keeping a disorderly house, was dismissed on payment of costs......James Touhey was convicted of battery, and will be sentenced to-day......The case of R. P. Tibbitts, for embezzlement and defrauding creditors, was partially heard, and continued until to-day. The defendant was represented by Hol. & Buckley and R. T. Devlin, and the people by City Attorney Anderson. The complaint was objected to by the defense on the ground that it was vague and technically incorrect, and the City Attorney, though he thought it was sufficient, was allowed by the Court to substitute another for it, the defense objecting. The testimony of several witnesses was taken, showing that the arrangements for running the Pacific Coast Building and Provident Association were about as follows: Each member paid in $5 at first and $5 more at the end of thirty days. The regular agents—principally officers of the organization—received $1 for each member obtained, and the other $1 of the first $5 went to the Secretary for making out the certificates of membership. Sub-agents received $2 or $3 for each member, and their principals the balance of the $4. The second payment of $5 was used to defray running expenses of the organization. The members were to get their benefit in this manner: In January, 1885, an assessment of $3 was to be levied upon the entire membership, to be divided among those who were members in January, 1884; in February a second assessment for the benefit of those who were members the preceding February, and so on for a year, when the class would close. Many of those who joined the association still consider the scheme a good one, especially for those who became members early in the year. Attorneys for the defense are endeavoring to prove that Tibbitts was no more to blame than some of the other officers of the association. The examination will probably occupy all of to-day.

The New Train Arrangement.—On the 1st of September the new arrangement for the running of trains through to Delta, the station at the end of the California and Oregon Railroad, 208 miles from Sacramento, will go into effect. By it the passenger trains on the California and Oregon road and the Northern road are changed around—that is, the Northern train will run through to the end of the road, while it is now only running to Red Bluff; and the California and Oregon express will only go as far as Red Bluff, instead of going to Redding, or the end of the road. The train which has been leaving Sacramento at 11:40 A. M., via the Northern, will leave by the new time card at 11 A. M., connecting at Davisville with the morning passenger train from San Francisco, and arriving at Delta at 8:15 P. M. As mentioned above, the 2:30 train over the California and Oregon road will only go to Red Bluff. A freight train leaving Sacramento over the California and Oregon road at 3 A. M. will carry passengers for the convenience of residents of Marysville, Chico and the upper towns, so as to connect at Tehama with the express for Delta. A freight train will leave Sacramento for Marysville daily (Sundays excepted) at 7 A. M. The express will leave Delta at 6:40 A. M., and arrive here at 3:45 P. M.

Drowned and Body Recovered.—About the middle of last week two Sacramentans went over to the end of the levee above the town of Washington to fish. After a while they concluded to enjoy a swim in the river, and Fritz Snider, one of the two, being a fine swimmer, undertook to cross the river and return. He swam nearly to the Sacramento shore, and had got well on his way back, when he called for assistance. Mr. Lawson put out in a boat to his rescue, but was unable to reach him in time, and he drowned. He was a native of Switzerland, aged about 50 years, and worked last in this city in taking up the Nicolson pavement, on Fourth street, between J and K, but had to cease work on account of a lame foot. His companion, who is connected with the William Tell Saloon, notified Justice Buckingham, of Washington, of the drowning. Last Friday the body of a man was found in the river at Freeport. Coroner Clark was informed, and yesterday morning went down and secured the remains, which proved to be those of Snider. They were brought to the city, and the Coroner impaneled a jury. The inquest was postponed until this evening. Owing to the advanced stage of decomposition the remains were in, they were interred as soon as possible.

Barwick's Report.—The Signal Service reports show the temperature, wind and weather at 12 M. Saturday and yesterday to have been: For Olympia, 68°, southwest and cloudy, and 68°, southwest and cloudy; Portland, 67°, south and cloudy, and 74°, north and fair; Fort Canby, 64°, south and cloudy, and 68°, south and cloudy; Cape Mendocino, 66°, north and clear, and 58°, north and clear; Red Bluff, 98°, east and clear, 88°, south and clear; Sacramento, 88°, south and clear, and 80°, southwest and clear; San Francisco, 60°, southwest and clear, and 61°, southwest and cloudy; Los Angeles, 88°, southwest and clear, and 84°, southeast and clear; San Diego, 78°, south and clear, 67°, northwest and clear; Salt Lake, 78°, southwest and fair, and 79°, northwest and cloudy; Cheyenne, 58°, south and cloudy, and 76°, northwest and clear; Denver, 70°, southeast and cloudy, and 82°, southwest and fair; North Platte, 77°, south and cloudy, and 76°, southwest and clear; Omaha, 76°, southeast and cloudy, and 68°, southeast and cloudy; Yankton, on Saturday, 77°, south and fair; Davenport, Ia., yesterday, 70°, south and cloudy.

MATRIMONY AND MURDER.

SAD ENDING OF A WEDDING AND BRIEF MARRIED LIFE.

The Bridegroom Shot by a Brother-in-Law—Conflicting Statements of the Occurrence.

Last Saturday evening, at the residence of C. R. Clark, on the west side of Seventh street, between J and K, A. Wainwright was married to Miss Annie Barrett, aged about 20 years, twin sister of Mrs. Clark, in whose family she has been living for a long time. At 2 P. M. yesterday the bridegroom was shot by Clark and fell dying on the same spot where he had stood a few hours previously to be married. About the hour mentioned officer Kent, who was in the vicinity, was informed that pistol shots had been heard in Clark's rooms, and it was suggested that something was wrong. The officer went to inquire, and soon was convinced that his informant was correct, as Wainwright was found lying on the floor of one of the apartments, unconscious and gasping. In another room Kent found Clark, who, after the interchange of a few words, picked up a pistol that he had laid aside and handed it to the officer, saying, "Here it is!" The weapon was a cheap, nickel-plated five-shooter, two barrels of the chamber empty. A physician had been sent for, who, after examining the injured man, pronounced that it was impossible for him to live. The doctor's judgment was correct, as death resulted in a few minutes. Clark was

TAKEN TO THE STATION-HOUSE,

Where Judge Henry and Chief Jackson questioned him. He stated that Miss Barrett had been living in his family for a long time, and his wife was very fond of her. Wainwright (who, on account of his stepfather, was sometimes called Sanders), became acquainted with the young lady, and seemed inclined to keep company with her, but she nor the family were pleased with him, and his visits were not made agreeable. Then he persisted in meeting her on the street, when she was returning home from her work at the cannery, where she was employed, and this was continued until Clark remonstrated with him, urging that it was not beneficial to either party, and was apt to be injurious to the lady's reputation. After one of these remonstrances Wainwright, so Clark says, threatened to put a bullet through him if he did not cease his interference. That was about a month ago. Subsequently Wainwright told Clark that he and Miss Barrett had become good friends, and they

PROPOSED TO GET MARRIED.

Clark told him if that was the case to resume his visits at the house, and everything would be made pleasant for him. Everything went pleasantly thereafter, and Clark did all he could in the way of arrangements for a merry wedding. Both men drank freely of wine after the wedding ceremony Saturday night, and Wainright's animosity to Clark broke out afresh, and the only way to avoid trouble and to save an unpleasant ending of the evening was to keep out of the other man's way. Yesterday forenoon the newly-married couple went out for a walk, and Clark also went out. The latter returned, and was sitting in a room talking with Mrs. Wainwright, when her husband rushed in, an open pocket-knife in his hand, and exclaimed,

"NOW, I'VE GOT YOU!"

And sprang toward Clark. The latter pushed him back two or three times, and finally said if he did not desist he would kill him. Wainwright again approached, with the knife raised, when Clark fired, the ball hitting his opponent at the edge of the forehead, just at the base of the nose, the powder burning his face, owing to the pistol being held close. He fell to the floor, and scarcely moved afterwards. So much for Clark's version of the matter. He explained his having the pistol in his pocket by saying that he went to a drawer earlier in the day to look at some papers, saw the pistol, found that the plating was coming off, and was examining the weapon when it was accidentally discharged, the ball passing harmlessly out of a window. Thinking the neighbors might believe there was something wrong, he went out, found officer Kent and told him of the accident. He then told his wife he would take the pistol to the levee, discharge the remaining loads and not reload it. (The weapon was a cartridge-loader, and he would only have had to withdraw the cartridges.) He went out, but visited a saloon, had several drinks of beer, and returned home with the pistol in his pocket, and it was still there when Wainwright entered the room. It may be mentioned here that officer Kent had searched for a knife in the room, but none was to be seen.

THE CIRCUMSTANCES OF THE KILLING

Are told very differently by the female members of the family, and Mrs. Wainwright states that she, her husband and Mrs. Clark were in the room, Wainwright sitting in a chair toying with a fan, when Clark entered in a violent and excited manner, a pistol in his hand. He took off his hat and dashed it down, ejaculating, "Vengeance!" and moved toward Wainwright, who, without saying anything, jumped up and caught him by the shoulder and arm, but Clark was able to raise his forearm, point the pistol in his opponent's face and fire. Mrs. Wainwright, when she saw the pistol, sprang for the window and went out on the porch, fearing that she would be killed also. As she turned, going out of the window, she saw the shot fired. Soon afterwards she heard Clark calling her, but would not go near, fearing he surely did intend to kill her. She thought he would do so because he was angry in consequence of the marriage. Mrs. Clark's statement was similar to Mrs. Wainwright's, except that she did not believe the latter could have seen the shot fired, as she was outside of the window at that time. Another sister, thirteen years of age, was in the room when Clark entered with the pistol, but ran out the door into the hall, alarmed by his excited manner.

THE PARTIES TO THE HOMICIDE.

Clark, who did the shooting, has been for a long time engaged in the cabinet department at the railroad shops. He has been married three or four years, and has a child seven months old. He expressed at the station-house great regret because of the killing, wept, and declared if it had not been for his wife, who would be left without any one to look after her, he would have shot himself after killing Wainwright, which, however, he thought he could not help doing. His reputation is said to be good. Wainwright was a blacksmith, in the employ of Nixon & Wheeler, and is reported to have been steady and industrious. He leaves an aged mother, who was nearly heart-broken on learning of the unfortunate occurrence. Coroner Clark will hold an inquest in the case this evening.

Sacramento County's Assessment.

County Auditor Gerber has completed the footings of the county assessment rolls, and transmitted the same to the State Board of Equalization. The following is a comparative table showing the assessments of property in Sacramento county for the years 1883 and 1884:

EXCURSION TO COURTLAND.

Enthusiastic Reception—Jolly Going, but a Scattering Return.

A jolly party left Sacramento Saturday evening in the steamer Margie for Courtland, and the following dispatch, sent from that place by one of the company, tells of their enjoyment: "The Margie floats proudly from her moorings here on the banks of the Sacramento, gaily decorated with the national colors and banners of red, white and blue. Of ourselves we can only say that we know but little, for we have become possessed of the cordial feeling of the people down this way and realize nothing else just now. The banks of the river were ablaze with bonfires to light our downward trip, and everywhere we were received with demonstrations indicative of sincerest welcome. At Senator Johnston's, Hollister's, and Bump & Houston's our receptions were unvaryingly hospitable. At this place they had a large meeting, fully 200 men being present. Everything down this way is for Blaine and Logan, with a hurrah. Colonel McNasser was elected Chairman. Among those in attendance are A. L. Frost, A. S. Hopkins, John Talbot, Thomas Scott, Senator Johnston, Wm. J. Davis, Dwight Hollister, George W. Jackson, Frank A. Smith, R. A. Rose, Elwood Bruner, H. A. Heilbron, A. W. Cole, A. Abbott, A. Sanborn, J. S. Graham, H. W. Carroll, H. Weinstock, R. H. Auerbach, and an orchestra composed of Jones, Beebe, Neal and Professor Hand. The meeting is not only one of the largest, but is also one of the most enthusiastic ever held at Courtland. We all feel even more assured that Sacramento county is solid for Blaine and Logan."

The Margie left Courtland on the return trip about 11 P. M. On the way up she ran on a snag, unshipped her rudder and sprang a leak. It took some time to get the rudder in place, a man having to disrobe and operate in the water for quite a while before it could be accomplished. The leak was not dangerous, as the steam pump was set at work and checked it. Still, the water gained upon the pump, and after awhile overflowed the floor about four inches. One of the passengers, a mighty man among the Caledonians—a chief as it were—who had been exceedingly jolly on the trip down and back, up to this time, dancing Highland flings and making the life of the party, became alarmed when he saw and felt the water, and his alarm was increased by the frosty remarks of another passenger, who took pains to relate all he knew or could invent relative to shipwrecks and drownings. Others assisted with dismal tales, and finally, when the boat was near Clarksburg, the Caledonian heard the engineer tell another man that he thought it was going down! The engineer referred to the fact that the pump was gaining on the water, but the horrified passenger believed he meant the boat. The steamer was near the bank just then, and the Caledonian gave a yell and jumped for the shore. Great Scott! what a jump! At a meeting of the clans it would have been awarded the gold medal and stood as the champion record for ever! The last seen of him he was hunting for the road to Sacramento, but no one knew last evening whether he had arrived. Subsequently two more of the passengers—dry goods and lumber, liable to damage by water—went ashore on the Yolo side, and engaged a Chinaman to "row them o'er the ferry" at the Riverside. They must have been feeling good in consequence of being on dry land again, for they gave the Chinaman enough coin to make his face beam like a full moon. The boat got up to the city about 9 o'clock A. M., ahead of those who disliked to trust her.

A Misunderstanding.—About 2 A. M. yesterday two thrashing machine hands, who had been stimulating too much, got into a fight at Second and K streets. Another man, a stranger to them, ditto as to stimulating, undertook to separate them. Several other parties, also strangers, tried to assist in the separating, and they began pulling and hauling at each other wildly. The first "separator" got the idea into his head that they were all disposed to assault him. He drew a pistol, the others jumped back out of the way, and he and his weapon darted off down Second street. Officers May and Frazee, and May's dog, went in pursuit and captured the fugitive, who was subsequently locked up, charged with being drunk.

Official Changes.—Recently the following changes as to Railroad Division Superintendents, relative to gentlemen well known here, were made: C. B. Seymour, as Division Superintendent of the El Paso Division of the Galveston, Harrisburg and San Antonio system, headquarters at El Paso. The appointment takes effect on September 1st, vice James Campbell, resigned. E. E. Hewitt has been appointed Superintendent of the Colorado Division, in addition to his other duties, vice C. B. Seymour, transferred. This change also takes place on September 1st. J. A. Muir has been appointed as Assistant Superintendent of the Rio Grande Division, in addition to his other duties, in place of James Campbell.

Accident on Brannan Island.—Coroner Clark received a dispatch Saturday stating that a sudden death had occurred on G. L. Crum's ranch, Brannan Island, and requesting him to go down and hold an inquest. He responded that if there was anything about the case rendering it necessary that an inquest be held, for a Justice of the Peace to perform the duty. The following dispatch from Rio Vista explains what the case was: "While G. L. Crum, with the assistance of a Chinaman, was digging at an old flood-gate on his ranch, on Brannan Island, the dirt caved in and buried them. With great difficulty Crum succeeded in getting out, but before he could extricate the Chinaman the latter was dead."

To Close the Break.—A special meeting of the Board of Supervisors of Yolo county has been called for next Thursday, to levy a special tax in Road District No. 1, for the purpose of raising funds to close the break in the levee above the town of Washington. The opening is 2,100 feet wide, and it is proposed to build 1,300 feet of levee and a dam 800 feet long, the latter not being built so high but that the river can run over it at its 22-foot hight. It is estimated that the cost of the work will be between nine and ten thousand dollars.

Drowned in Fisherman's Lake.—Yesterday morning Henry Rehdar, aged about 24 years, employed at Schwartz's meat market, Seventh and L streets, went up to Fisherman's Lake, six miles above the city, with other parties, to fish. As the fish were not biting well, he and [illegible] Schwartz went in swimming, and he was taken with a cramp, which resulted in his drowning before assistance could reach him. Schwartz came to the city and got grappling hooks from the station-house, but the body could not be found.

Works of Art at Auction.—Sherburn & Smith will sell at auction at No. 420 J street, commencing at 7:30 this evening, a large number of Italian marble and alabaster works of art, imported directly from Florence, Italy, and comprising Grecian and Florentine vases, Roman urns, fruit-stands, epergnes, card-receivers, ornaments, etc.

Accidents Will Occur.—We, the undersigned, policy holders in the Travelers' Accident Insurance Company, of Hartford, Conn., do cheerfully announce to the public that we have this day received our indemnity claims with promptness and satisfaction through their agent, S. W. Smith, 1002 J street, and do recommend the company to all desiring life insurance in any form.

BRIEF NOTES.

The Board of Education will hold a meeting this evening.

Three carloads of immigrants arrived from the East this morning.

The Sacramento river is down to 9 feet 2 inches above low-water mark.

Nearly 300 prisoners are now employed in and about the quarries at the State Prison at Folsom.

Samuel Gamble, who has been training several promising young horses at the Park, removed his stable to San Francisco Saturday.

Yesterday morning the Capital Canning Club's new boat was launched successfully, and soon started up the river in fine style with a full load.

J. R. More, late turnkey at the Folsom Prison, has been compelled to resign on account of ill health. He has been succeeded by R. J. Murphy.

Chico Pete, an arrival from the upper country, got on a spree Saturday, and subsequently reported to the police that some one had stolen his watch.

A passenger who left Portland, Or., on the 18th instant, arrived in Sacramento on the morning of the 21st, which may be considered pretty fast traveling overland.

The guards at the State Prison at Folsom are highly pleased with their new sleeping quarters, in their new guard-houses, and are getting things arranged very comfortably.

The remains of Mrs. Alice M. Stern (formerly Miss Alice White, of this city), who died in San Francisco on the 22d, of pneumonia, were brought to Sacramento yesterday for interment.

The pay car came down yesterday from the front of the California and Oregon Railroad, where it had been paying off men employed in construction, and went below by the Western Pacific train.

Mr. McMullen, agent of the Brush electric system, is about to put in a "plant" at Woodland, relying at present upon private subscriptions, with the expectation of being able to get a contract for lighting the town later.

The "old horse" sale of unclaimed baggage from the Western Hotel, by Sherburn & Smith, Saturday, drew a large crowd, who expected much amusement; but, as the buyers rarely opened their purchases on the spot, fun was scarce.

The 100-yard footrace, for $100 a side, between Frank Eldred and Charley Dodge, which took place at Agricultural Park Saturday evening, was won by the former by about two yards. There were about 300 spectators, and a large number of bets were made as to the result.

A man named James Kavanaugh, said to have a wife and children, was notified by the police to leave town, the officers being convinced that he was of the "lover" persuasion, living with a public woman here. He declined to leave, and has been arrested for vagrancy.

Roadmaster Todhunter and Supervisor Snider are making it unpleasant for the Chinese hop-pickers, and other transient residents of Yolo county of the Celestial persuasion, by stopping them at the western end of the Sacramento and Yolo bridge and compelling them to pay road tax.

Arrived Saturday and yesterday, steamer San Joaquin No. 2, from San Francisco, with merchandise; steamer Varuna, from the upper Sacramento, with grain; steamer C. M. Small, from San Francisco for Marysville, with merchandise. Sailed, steamer Varuna, for the upper Sacramento, light.

Deputy Sheriff Joe Orn was the recipient Saturday of a handsome gold match-box, presented to him on the "surprise party" order at Peter Flaherty's saloon by a number of his friends. Peter made the presentation address, in response to which Joe "did the fair thing" by his friends and "the house."

The Supervisors of Yolo county have been notified to appear before the State Board of Equalization next Wednesday and show cause why the assessment of that county should not be raised. Last year the assessment was less than $14,000,000, and this year it is over $16,000,000, notwithstanding that the money and personal property in the county are less than last year, and there has also been a loss in consequence of the overflowing of land last winter through the breaking of levees.

The City Drainage.—The tank into which the sewage of the city is to be pumped, under the new system, is in place at Eighth and Y streets, and the 18-inch pipe running from it to the river has nearly all been laid, the workmen being now engaged close to the river, the levee having been cut through to allow the pipe to pass. This portion of the work will be completed in a few days. Men are now engaged in excavating on Eighth street, just inside of the Y-street levee, a reservoir, 100 feet by 60, and three feet deep, in which the sewage will accumulate, to be lifted out by the pump and emptied into the tank. Three blocks of 18-inch pipe will be laid, to connect the reservoir with the Sixth-street sewer.

That Claim.—P. F. Dolan states that he was employed to make his trip to the hydraulic mines by six members of the Board of Supervisors, and not by the President of the Board alone. He does not consider that his bill for the work was excessive, as he had to pay his own expenses, and those necessary for a team. He says that District Attorney Carey has declined to take steps to enjoin payment of the bill, and Mr. Christy has not taken any legal steps to that end, but the Auditor will not be asked to draw a warrant for its payment until after the next "finance day" of the Board, when those who employed claimant can in full number act upon his demand.

Horses for Marysville.—The four-year-old trotting horse Happy Jim, belonging to Mr. Schafter, of Gridley, was sent up from this city to Marysville yesterday, to take part in the races there. Yesterday five horses—four trotters and one pacer—belonging to P. P. Dudley, came up from San Jose, en route to Marysville. By this afternoon's express train there will go up to the same place, from Sacramento, Wilbur F. Smith's Adair, Thapsin and Pansy; Tryon's Prince; Odell's Shaker; Hogoboom's Home, Sweet Home; Todhunter's Huntress and Nevada (formerly General); Taylor's Sterling, Challenge and Triveta; Spencer's Belle Spencer.

Arrests.—The following arrests were made Saturday and yesterday: James Kavanaugh, by officer Franks and Sullivan, for vagrancy; Samuel C Lowa and Ellen Lowa, by the same officers, for disturbing the peace; Mary Brown, by officer Frazee, for exhibiting; Pat Kelly, by officer Coffey, for being drunk; John Doe and Jim Landy, by officer Frazee, for being drunk.

A Wonderful Show.

There is nothing new in the circus world which W. W. Cole does not possess, while much of the novelty which exists in this line is exclusively his own. He has steadily increased his exhibitions each year, adding to both circus and menagerie departments, until now it is aknowledged that he has one of the finest and largest amusement enterprises on earth. His show is given under a mammoth canvass, and there are two rings and an exhibition platform where all such acts as bicycle riding, roller skating, etc., take place. In these three exhibition spaces nearly sixty different performances are given, all first-class in quality and fresh and astonishing in character. The number of wild animals is unusually large, and the force of elephants is ample. Trained animals are also to be seen. Among the special features are a sacred white elephant from Siam, a troupe of performing Arabs, with Turks, Moors, Egyptians and Spaniards also giving performances; aerial bicyclists, and Mlle. Aimee, the human fly, who walks head downward upon a polished plane of wood, at a height of sixty feet, and without a net. All these features will be seen here on Thursday, August 28th. *

There Are Millions In It.—You can buy yourself rich in fifteen minutes at Earle, Potter & Co.'s, 826 J street. Our entire stock of stoves, tinware, glassware and crockery must be sold at once, at any price. *

MARRIED.

Sacramento, August 23—By J. C. Tubbs, Justice of the Peace, Alden M. Wainwright to Annie Barrett, both of Sacramento.

Sacramento, August 24—By J. C. Tubbs, Justice of the Peace, Annibale Pierini to Nellie Boothroyd, both of Sacramento.

BORN.

Pleasant Grove, August 22—Wife of J. F. Elliott, a daughter.

Near Madison, Yolo county, August 21—Wife of E. H. Archer, a son.

DIED.

Sacramento, August 23—Mrs. Eliza Lynn (mother of Miss Hattie E. Lynn), a native of Washington county, Pennsylvania, 71 years and 1 month.

[Friends and acquaintances are respectfully invited to attend the funeral, which will take place from the residence of her daughter, No. 1320 Tenth street, between M and N, this afternoon at 3 o'clock.]

CHANGED EVERY DAY FOR THE MECHANICS' STORE.

Now things are as we wish them.

Hitherto the Republican who has come to us for a Campaign Hat has been able to air his politics at less cost than the Democrat. Now we have the CLEVELAND as well as the BLAINE HAT at $2 50, and without any disparagement to the latter, we can say that this newcomer is one of the very best things out thus far, for Fall wear.

Which?

Saturday night Millinery came down stairs, and we made our last excuse in behalf of those tiresome stairs which led up into the old quarters.

For a day or two the Millinery Department will abide with Cloaks and Wraps—after that—presto! The new store, new furnishings, new conveniences, NEW GOODS.

All this under the bright light and cheery air of a forty-foot dome!

Ordinarily, we believe, housewives do not invite company during house cleaning, and presumably we should not call attention to the Hair Department while upset in moving. Still we cannot keep all its friends away even if we try. So why not all come who need its services?

This much we can say at least, that we have never been able to promise better, speedier or more economical service than we are prepared for to-day. And, judging from the popularity of this department during its short career, this means much that is to the interest of every one who has Hair Work of any sort to be done.

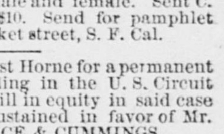
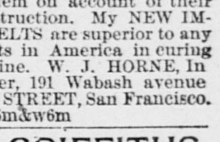
C. N. WEST'S ELECTRIC BELTS.



BEING THE INventor of a number of valuable Electric Belts, I now present to the world my New Improved Belt, superior in every respect to any other known belt, and the only one of all Electric Belts which can be charged with water and carry a constant current of electricity through the human body, curing diseases without medicine and restoring lost manhood. Testimonials are on file by thousands testifying to its intrinsic value for male and female. Sent C. O. D. or for cash, price $10. Send for pamphlet to C. N. WEST, 652 Market street, S. F. Cal.

Mr. West's case against Horne for a permanent injunction is now pending in the U. S. Circuit Court in Chicago, the bill in equity in said case having already been sustained in favor of Mr. West. ROYCE & CUMMINGS, Solicitors for Plaintiff, 507 Montgomery street, San Francisco. m24-3p

30 DAYS' TRIAL.



AS THE SOLE MANufacturer of Horne's Electric Belts, I warn the public to beware of the recklessly false statements that "C. N. Wes * * *" discarded the same. He could not possibly do so, since he never manufactured such Belts. Years ago I sold West's Belts, but discarded them on account of their defective electric construction. My NEW IMPROVED ELECTRIC BELTS are superior to any electric or galvanic belts in America in curing diseases without medicine. W. J. HORNE, Inventor and Manufacturer, 191 Wabash avenue Chicago: 702 MARKET STREET, San Francisco.

SAN FRANCISCO MARKET.

SAN FRANCISCO, August 23d.

FLOUR—Best city extra, $4 75@5 10; Medium, $3 50@4 50; shipping superfine, $3@4 25 ℔ bbl.

WHEAT—Another week of quiet trade has passed, and the prospect for better prices is no brighter. The top of the market for good shipping grades is $1 27½ ℔ ctl, and it must be something extra to bring out an advanced offer.

Call business to-day was moderately active at easy prices. Sales were:

Buyer season—100 tons, $1 38¾; 100, $1 38⅝.

Buyer season, city—200 tons, $1 38¾; 100, $1 38½.

Buyer 1884—300 tons, $1 32¾; 100, $1 32⅞; 100, $1 33.

Seller 1884—400 tons, $1 26¼; 600, $1 26⅛.

Seller 1884, city—200 tons, $1 27½; 100, $1 27¾.

Seller 1884, for account of whom it may concern—100 tons, $1 26¾ ℔ ctl.

BARLEY—There was no marked change in the situation to-day. Good No. 1 Feed was offered at 80c without finding much attention from buyers, while choice parcels were held at 82½c ℔ ctl. In Brewing the trade is largely of a jobbing character, sales being negotiated within a range of 95c@$1 02½ for old and 85@90c ℔ ctl for new.

Business on call this morning was slim. Sales were:

Buyer season—100 tons, 91⅝c; 200, 91½c; 200, 91⅜c.

Seller 1884—300 tons, 79¼c ℔ ctl.

OATS—Stocks were increased to-day by the arrival of 2,000 bags from Washington Territory. We quote old as follows: Surprise and Milling, $1 60@1 70; No. 1, $1 45@1 55; No. 2, $1 25@1 35; Black, $1 10@1 20 ℔ ctl; new Salinas Feed, $1 10@1 25.

SEEDS—Mustard, $2 25@2 37½ for Brown, and $1 75@2 for Yellow; Canary, 4@5c; Hemp, 3½@3¾c; Rape, 2½@3c; Timothy, 5½@6c; Alfalfa, 7½@8c; Flax, $2 60@2 75 ℔ ctl.

HAY—Alfalfa, $8@12; Wheat, $13@16; Oat, $12@16; Barley, $9@12; Mixed, $7@11 ℔ ton.

HOPS—Nominal. No stocks.

RYE—Inactive market. Quotable at 85@90c for old, and 92½@95c ℔ ctl for new.

BUCKWHEAT—Offerings of new crop are liberal. Quotable at $1 75@2 ℔ ctl.

POTATOES—Early Rose, 40@60c ℔ ctl; Garnet Chile, 70@75c ℔ ctl; Peerless, 70@75c ℔ ctl. Sweet are quotable at 1¾@2¼c ℔ ℔.

ONIONS—Supplies are less heavy. Quotable at 60@70c ℔ ctl.

BEANS—Bayos, $1 50@4 60; Butter, $3 25; Pinks, $4 50; Reds, $1 50; Lima, $2 60@2 75; Small White, $2 65; Pea, $2 65 ℔ ctl.

VEGETABLES—There is no marked variation in values. Supplies continue free. Green Peas, 1@1½c ℔ ℔; String Beans, 1@1½c ℔ ℔; Tomatoes, 25@40c ℔ box; Summer Squash, 20@25c ℔ box; Cucumbers, 12½@25c ℔ box; Green Corn, 50c@$1 25 ℔ box; Artichokes, 10c ℔ dozen; Carrots, 40@60c; Turnips, 50@65c ℔ ctl; Beets, 50@75c ℔ ctl; Parsnips, $1 ℔ ctl; Cauliflower, 50@75c ℔ dozen; Cabbage, 60@75c ℔ ctl; Garlic, 1½@2c ℔ ℔; Celery, 50c ℔ dozen; Green Peppers, 25@60c ℔ box, according to quality; Egg Plant, $1@1 25 ℔ box; Okra, 4@6c ℔ ℔; Marrowfat Squash, $6@8 ℔ ton.

FRUIT—Domestic descriptions change hands at old figures. Mexican Limes have advanced, owing to scarcity. Apples, 50@75c for common, and $1@1 25 ℔ box for good to choice; Pears, 30@50c ℔ basket and 60c@$1 ℔ box; Bartlett do, $1 50@2; Strawberries, $5@7 ℔ chest; Blackberries, $1 50@2 ℔ chest; Figs, 75c@$1 25 ℔ box; Quinces, 75c@$1 ℔ box; Plums, 1@2c ℔ ℔; Peaches, 80c@$1 ℔ box; Crawford do, 80c@$1 ℔ basket; Cling Peaches, $1 15@1 25 ℔ box and basket; Grapes, 50@65c ℔ box for common, and 75c@$1 ℔ box for good to choice; Nectarines, $1 ℔ box; Cantaloupes, 50@75c ℔ crate; Watermelons, $5@8 ℔ hundred; Lemons, $8 50@9 for Sicily; Mexican Limes, $18@20 ℔ box; Bananas, $1 50@3 ℔ bunch; California Oranges, $2 50@3 50 ℔ box.

HONEY—Comb, 8@11c; Extracted, 4½@5¼c ℔ ℔.

BUTTER—Higher prices are asked for fresh quality. Fancy, 31@32½c; good to choice, 28@30c; store packed, 17@19c; pickled roll, 24@25c; firkin, 20@21c for choice new, and 15@18c for fair to good; Eastern, 14@18c ℔ ℔.

CHEESE—Prices fairly steady. Quotable at 10@13c ℔ ℔.

EGGS—There are some poor offerings on the market for which 20c ℔ dozen would be quickly accepted if buyers could be found. An article of first-class quality is promptly taken, however, at our figures. California, choice, 31@32½c; ordinary, 27@29c; Eastern, 20@23c ℔ dozen.

POULTRY—The tone of the market is of easy character. Should supplies continue free, a drop in prices next week is more than likely: Live Turkeys, gobblers, 23@25c; do, hens, 22@23c; Roosters, $7@7 50 for old, and $5@6 50 for young; Hens, $6@7 50; Broilers, $3@4 as to size; Ducks, $5@7 ℔ dozen; Geese, $1 75@2 25 ℔ pair.

GAME—Venison, 11@12c ℔ ℔; Hare, $1 75@2 50; Rabbits, 75c@$1 25 for small and $1 50@1 75 ℔ dozen for cottontail.

PROVISIONS—Eastern Hams, 16½@17½c; California Hams, 15@15½c for plain, 16½@17c for sugar canvassed; Eastern Breakfast Bacon, 15@15½c; California Smoked Bacon, 13@13½c for heavy and medium, and 14@14½c for light, and 15½c for extra light; Clear Sides, 13@13¼c; Pork, $18@18 50 for extra prime, $20@20 50 for prime mess, $22@22 50 for mess, $22 50@23 for clear, $24@24 50 for extra clear; Pigs' Feet, $16@18; Mess Beef, $15 50@16 for bbls, $8 50 for hf bbls; Family Beef, $19@19 50 ℔ bbl; California Smoked Beef, 16@16½c ℔ ℔; Beef Tongues, $19 50@19 75 ℔ dozen; Eastern Lard, 12@12¼c for tierces, and 12¼@12½c ℔ ℔ for pails; California do, 10-℔ tins, 10½@11c; 5-℔ tins, 12¼@12½c; pails, 12½@12¾c for 10-℔, 13@13¼c for 5-℔, and 13¼@13½c ℔ ℔ for 3-℔ pails.

Fast Pacing at Chicago—Running at Saratoga and Monmouth Park.

[By Telegraph.]

CHICAGO, August 23d.—At the Driving Park, the match race between the famous pacers Johnston, owned by Commodore Kittson, and Richball, owned by J. S. Campbell, for a wager of $5,000 a side, occurred this afternoon. The weather was clear and cool, and the track fast, except a portion on the back stretch, which was soft. There was an attendence of 5,000. Johnston was the favorite in the pools, before the opening of the race, at from $25 to $100, and a large amount of money was wagered. The friends of Richball claimed that Johnston could not go three fast heats, but the result proved that they were mistaken, as he was never headed, pacing very close to Little Brown Jug's 2:13¾—2:11¾—2:12¼, which is the fastest three heats on record. It was the general opinion that if Johnston had been driven out in each heat he could have beaten that record. The owner of Richball says his horse was out of condition. Johnston in each heat passed the wire in a jog, with Richball only a little inside the distance pole. Time, 2:13—2:11¾—2:13¼.

Following this event was an exhibition by the pacing mare Minnie R., hitched to wagon, with the running horse, Firebrand, which accompanied the pacer Westmont when he paced over this course in 2:01¾. The exhibition was to beat 2:05. In the first heat the time was 2:07; in the second heat the mare broke, and returned without going around, but the third heat began with much promise. The quarter post was reached in thirty seconds, or at the rate of two minutes; the half in one minute—the same rate—but the next quarter was slower, the three-quarter post being passed in 1:32¼. Coming home the mare tired very perceptibly, completing the mile in 2:07¼.

SARATOGA, August 23d.—To-day the weather was warm and clear and the track was a little dusty. The attendance was large. The Equity stakes, for two-year olds, three-quarters of a mile, Morning Glory won, Ten Stone second, Harrigan & Hart third. Time, 1:16½. For the Morrissey stakes, two miles, the starters were Emma, General Monroe, Compensation, Vera, Cardinal McCloskey and Lucky B. General Monroe won, Compensation second, Vera third. Compensation made the running from McCloskey, Lucky B. and Monroe throught the first mile. At the start on the second time round, Lucky B. took second place and Monroe next, but Compensation held the lead until half a furlong from the finish, where Monroe got up and won a good race by a length. Time, 3:38. The mile and a furlong, for all ages, Mammonist won, Richard L second, Shenandoah third. Time, 1:57½. The three-quarter mile Disturbance won, Laramintа second, Galaxy third. Time, 1:16½.

MONMOUTH PARK, August 23d.—The free handicap sweepstakes for all ages, one and one-seventh miles, Little Fred won, Markland second, Tatler third. Time, 1:53½. The three-quarter mile, for two-year-olds, selling race, Prescott won, Error second, Dahlia third. Time, 1:19. The free handicap sweepstakes, one and three-quarters of a mile, Regret won, Girofle second, Thurles third. Time, 2:11½. The select stakes for two-year-olds, three-quarters of a mile, Gano won, Wanda second. Time, 1:19½. The handicap sweepstakes for all ages, one and one-quarter miles, Louisette won, Duke Carter second, Bob Cook third. Time, 2:15½. The one mile, selling race, Joe Mitchell won. Time, 1:53½. The handicap steeple-chase over a short course, Quebec won, Echo second, Pawnee third. Time, 3:26.

GETTING EVEN.—The Galt *Gazette* has the following: "Last Sunday afternoon C. Pfend, who has figured conspicuously in Galt since his recent marriage to Miss Annie Sullivan, whom he turned out of doors two weeks after entering into the solemn contract and deserted, got on the warpath and started in to whip the town. The first citizens to get injured were two of the jurors who served on his trial a few days ago in the Justice's Court and found him guilty of assault and battery on his wife. He punched the stomach of one and gave the other a black eye. However, before he succeeded in doing much damage, although exhibiting a deadly weapon in the shape of a five-shooter and threatening to use it, he ran foul of the 'bouncer' of the Fountain saloon, who gave him two beautiful black eyes and otherwise disfigured his good-looking countenance. Pfend has closed out his business here and is about to depart."

LOST HEALTH. DR. LIEBIG'S INVIGORATOR. DR. LIEBIG'S WONDERFUL GERMAN INVIGORATOR.

THE OLDEST, GREATEST AND BEST REMedy for the cure of Nervous and Physical Debility, Vital Exhaustion, Seminal Weakness, Loss of Manhood, Failing Memory and Relaxed and Enfeebled condition of the Genito-Urinary Organs.

It speedily cures Impotence, Early Decay, Loss of Vigor, SEMINAL WEAKNESS, and all the sad effects of youthful follies and abuse or EXCESSES OF MATURITY.

It permanently prevents all Unnatural Loss from the system, as thousands can attest who have used the Remedy in the past quarter of a century which it has been before the public.

It is indeed a wonderful remedy—toning the nerves, strengthening the muscles, checking the waste, invigorating the whole system and restoring the afflicted to HEALTH and HAPPINESS.

The Doctor will agree to forfeit $1,000 for a case undertaken not cured. The reason so many cannot get cured of Weakness and the above diseases is owing to complication called PROSTATORRHEA with Hypersthesia, which requires special treatment.

DR. LIEBIG'S INVIGORATOR, No 2, with our peculiar special treatment, is the only cure for PROSTATORRHEA. By it MANHOOD is restored and the hand of time moved back from age to youth.

Price of either Invigorator, $2. Case of six bottles, $10. Sent to any address, covered securely from observation.

Dr. Liebig & Co. treat successfully by Homeopathy every form of SPECIAL, PRIVATE or CHRONIC DISEASE without mercury or nauseous drugs. If vitality is drained from the body, numerous diseases follow that baffle ordinary medical treatment. If allowed to continue, the unnatural loss causes Consumption, Diabetes, Bright's Disease, Insanity, etc. Cures guaranteed. Diseases of the genito-urinary organs, kidneys, liver and bladder specially treated. DISEASES OF WOMEN SPEEDILY CURED.

Qualified and Responsible.—Dr. Liebig & Co. from EUROPE are regular college educated physicians, and are now in their nineteenth year of special practice.

Dr. Spinney & Co Of No. 11 Kearny st., San Francisco, Treat all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or Private Disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of 30 to 60 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sunday, from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5. Call or address

DR. SPINNEY & CO., No. 11 Kearny street, San Francisco.

P. S.—For private diseases of short standing, a full course of medicine, sufficient for a cure, with all instructions, will be sent to any address for $10. au28-4p5tawMTWThFtf
